DAVID SAMIR

Full-Stack Development | MERN Stack | Frontend & Backend Development

+20 1205664577 • Egypt • Email • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Software Engineering student with a strong interest in **Full-Stack Web Development** using the **MERN stack**. Experienced in building responsive web applications, RESTful APIs, and secure backend systems. Passionate about learning new technologies and writing efficient, clean code. Looking for an **internship opportunity** to gain practical experience and contribute to innovative software projects.

TECHNICAL SKILLS

- **Frontend**: HTML, CSS, JavaScript (ES6+), Tailwind CSS, React.js, React Router
- **Backend**: Node.js, Express.js, Nest.js, Prisma, PostgreSQL, MySQL, MongoDB
- **Tools & Libraries**: Vite, NPM, Axios, Git, GitHub
- **Deployment & Hosting:** VPS, SSH, Nginx, SSL, domain & email setup (MX/SMTP), PM2
- **Concepts**: Object-Oriented Programming (OOP), Data Structures, Problem Solving
- **Operating Systems**: Windows, Linux (Kali)
- **Security Tools**: Burp Suite (Proxy, Repeater, Intruder for request testing)

SOFT SKILLS

- Teamwork • Communication • Time Management • Problem Solving
- Adaptability • Critical Thinking • Attention to Detail

EDUCATION

Bachelor's Degree in Software Engineering *(Expected 2028)*

Arab Academy for Science, Technology & Maritime Transport — *feb 2024 – Present*

Grade :3.98/4.0

WORK EXPERIENCE

Summer Intern | Ministry of Communications and Information Technology (MCIT) *July 2025 – August 2025*

- Completed an intensive 120-hour professional training program focused on Data Science and Web Development.
- Gained foundational knowledge in **Data Science principles and analysis**, learning to interpret complex datasets to drive business insights.
- Studied **Business Mechanisms** to understand how technical solutions align with organizational goals and digital transformation strategies.
- Developed practical skills in **Web Application Development**, focusing on modern architectures and deployment.

AI & Cybersecurity Intern | Universidad de Salamanca (USAL)*July 14 – July 18, 2025*

- Completed a specialized 30-hour course and intensive "Cybersecurity Summer Bootcamp".
- Gained technical insights into **Artificial Intelligence (AI)** and its integration with modern communication systems.
- Studied advanced **Cybersecurity** frameworks in a program supported by the Spanish National Cybersecurity Institute (INCIBE).
- Explored digital resilience strategies funded by the European Union's NextGenerationEU and the Spanish Ministry for Digital Transformation.

Global Communication Intern | Universitat Autònoma de Barcelona (UAB)*July 3 – July 16, 2025*

- Participated in the **MILID & Global Understanding** international training program.
- Focused on **Media and Information Literacy and Intercultural Dialogue (MILID)** to enhance global communication skills.
- Engaged in high-level academic sessions directed by experts from the Universitat Autònoma de Barcelona.
- Collaborated within an international cohort to develop a deeper understanding of global information exchange.

PROJECTS

DA MOTOR (Live Demo) | [Source Code]

A high-end, responsive web application designed for a luxury vehicle dealership.

- responsive site with dedicated pages for Home, About, Motors, and Contact.
- interactive wishlist feature with a real-time counter in the navigation bar to track user
- interest.
- validated contact form and an organized business information section for lead generation.
- Implemented a mobile-friendly layout using a custom navigation menu and feature grids.

CERTIFICATIONS

- **Cyber Security Summer Bootcamp** – Spain, July 2025 (Certificate)
- **MILID & Global Understanding Program** – Spain, July 2025 (Certificate)
- **Data Science & Web Development intern -MCIT** (Certificate)
- **Top of my class** (Certificate)
